Professional Summary

I am a dedicated and self-motivated individual with a strong work ethic, eager to explore new opportunities in the field of Information Technology. I am actively seeking a position where I can apply my skills, gain valuable experience, and grow as a trainee to become a successful professional in the industry.

I have 1 year of industrial-level experience as a Full Stack Developer, where I have gained hands-on experience in developing, testing, and maintaining web applications. This experience has strengthened my technical skills and enhanced my ability to work in real-world development environments.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java

Version Control: Git, GitHub, Bitbucket

Databases: MongoDB, MySQL

Front-End: HTML, CSS, Tailwind CSS, React.js, Material-UI, Next.js,

Back-End: Node.js, Express.js, Spring Boot

Cloud Platforms: AWS (basic knowledge)

UI / UX - Figma

DevOps: CI/CD pipelines (basic understanding)

Experience

Associate Developer (Part Time) | Verlixtech (Pvt)Ltd **Feb 2026 Present**

Full-Stack Developer

• Designed and developed modern web applications using React.js, Next.js, TypeScript, HTML, CSS, and Tailwind CSS, building scalable backend services with Spring Boot, Java, and MySQL within a microservices architecture, while integrating RESTful APIs and implementing secure JWT-based authentication.

Intern Software and Web Developer| Cyber Mas Solutions (Pvt)Ltd **July 2025 – Feb 2026**

Full-Stack Developer

• Designed and developed the CMS Smart Dispatch System using microservices architecture, leveraging Spring Boot, Java, MySQL, and Docker for scalable backend services and containerization.

• Built responsive user interfaces with React.js, HTML, CSS, and Tailwind CSS, while designing RESTful APIs and implementing secure JWT-based authentication and efficient database management.

Intern Backend Developer| Sri Lanka Ports Authority **July 2024 – Jan 2025**

Back-End Developer

• Developed and maintained features for the EDDS (Electronic Document Digitalizing System) using Spring Boot, Java, and microservices architecture, ensuring scalable and efficient backend services.

• Contributed to backend and frontend development by building APIs with Spring Boot and MySQL, and developing UIs using AngularJS, TypeScript, HTML, and CSS, with large-scale API integrations to improve performance.

Education

Wrexham Glyndwr University - United Kingdom **Dec 2025**
Bachelor of Science (Hons) in Computing

Concentrations: Software Development
Related Coursework: Web application Development, Mobile Application Development, Distributed Data and Data Analytics, IT Project Management

University of Moratuwa- Institute of Technology (NDT) **Expected Graduation June**
National Diploma in Technology Information Technology

Concentrations: Software Development
Related Coursework: Web application Development, Mobile Application Development, Advanced Mathematics And Statistics, Computer Graphics, Enterprise application Development

Vidyartha Collage Kandy
2020 **-** G C E Advanced Level Examination (Physical Science) – 3C Passes

Key Projects

Early autism diagnosis system – Website **2025**
Develop website to identify early autism children age (3-6) using machine learning model. The Early Autism Diagnosis System utilizes the AQ-10 (Autism Spectrum Quotient-10) questionnaire, a concise yet effective tool designed to assess autism traits in individuals.

Used technology - JavaScript / Css / Node js / MySQL / React js / Python / Google colab

MPC Promo System **2025**
Develop web base system for Promote their products to clients and give them back Reward, Printing Reward codes and Verifying them through SMS and give them payments

Used technology – Next Js , Type Script, MongoDB, SMS Get way.

ABC Convention-meeting Appointment Scheduler **2025**
Develop Appointment scheduler to create appointment. User can create appointment using this web base application.

Used technology - Java Script / CSS/ Node Js / MYSQL React Js

Certification & Courses

- Aws academy Cloud Foundation- University of Moratuwa
- AWS Academy **– (AWS Educate Introduction to Cloud 101)**
- DP Education - UOM: Python for Beginners
- LinkedIn Learning - React Native
- Meta Development - Introduction to Front End Development
- DevOps Academy - Docker Beginners Guide course at CoDeKu DevOps Academy
